👤 PROFILE

I am a Front-End Software Engineer with a strong focus on creating responsive, user-centric web applications. I have hands-on experience in front-end development, including UI implementation, API integration, debugging, testing, feature development, and version control with Git. In addition, I have worked on UI/UX design, contributing to prototyping and wireframing using Figma to enhance usability and design quality. Combining technical expertise with creativity, I aim to deliver seamless digital experiences that balance functionality and design.

👜 PROFESSIONAL EXPERIENCE

Front-End Software Engineer Intern

Feb 2025 – Aug 2025

ZynovateX (Pvt) Ltd.

- Gained experience in responsive UI development, API integration, debugging, testing, feature implementation, and version control with Git
- Worked on UI/UX design through prototyping and wireframing user interfaces using Figma

Artist | Product Designer

Nov 2020 – Aug 2025

Fiverr (Level 2)

- 5 years of experience in idea designing, concept art, pencil sketches, UI/UX design, and product design.
- Skilled in global project management, on-time delivery, and understanding client needs. Strong in communication and customer satisfaction.

🎓 EDUCATION

BSc. (Hons) in Computing and Information Systems

2022 – present

Sabaragamuwa University of Sri Lanka

Current GPA : 3.28

G.C.E Advanced Level (Physical Science Stream)

2020

Ruhunu Vijayaba National Collage

G.C.E Ordinary Level (English Medium)

2016

Ruhunu Vijayaba National Collage

📁 PROJECTS

GutUp (Company Project) 🔗

Next.js TypeScript API Integration Shadcn

A multilingual (English & French) food delivery app with recipe creation, food categories, health-focused options, and custom recipe management, supported by a complete admin panel.

My Contributions

- Developed the full front-end and admin panel using Next.js, TypeScript, shadcn components, and responsive UI design.
- Integrated APIs, Zod validations, and testing to ensure reliability, functionality, and scalability.

Atnurmi (Creative Brand Website)

Next.js TypeScript Tailwind CSS Full Stack

A modern full-stack brand website built entirely with Next.js, featuring creative services, graphic arts, sketches, product designs, frontend development, and digital item downloads through an engaging user experience.

BrandSpark (group)

MERN ReactJS Node.js MongoDB

An AI-based brand promoting web application that offers user-friendly tools for creating logos, generating brand names, and delivering precise, effective brand promotions with ease and accuracy.

My Contributions

- Front-End: Developed a responsive UI with AI-driven features for logos, brand names, and promotions
- UI Design: Created an intuitive interface for seamless brand creation and user experience
- Login/Signup: Built secure login, signup, and expert pages for enhanced usability.

Clothing Shop Pos System

Figma

Designed and prototyped a complete clothing shop POS system in Figma, featuring full UI/UX design with interactive admin and cashier dashboards, and login pages. Focused on creating intuitive workflows, consistent visuals, and a professional end-to-end prototype showcasing usability, functionality, and design standards.

 TECHNICAL SKILLS

- Programming Languages** - HTML, CSS, JavaScript, TypeScript
- Frameworks and Libraries** - ReactJS, Next.js, Tailwind CSS, Shadcn/UI, Bootstrap
- Technologies and Tools** - Git, Figma, Krita, Photoshop, Illustrator, 2D Pencil, Trello

 SOFT-SKILLS

Ability Leadership	Sketching Idea	Project Management and Delivery
Communication	Pencil Drawing	Time Management and Problem Solving
Teamworking and Collaboration	Concept Art	Adaptable

 CERTIFICATES

Web Design for Beginners	University of Moratuwa	2024
Foundations of User Experience (UX) Design	Google	2024
Python for Beginners	University of Moratuwa	2024

 VOLUNTEERING

Society of Computer Sciences	2023 – 2025
Active member	
IEEE Student of Branch of SUSL	2023 – 2025
Student Volunteer
